Taxus baccata (Yew)	30-45		3.75	3.10

We aim to provide amenity trees with, if possible, UK seed source and UK origination. This is so that the trees you buy are more suited to our climate. Where this is not possible, we supply trees from the nearest equivalent climate.

We also have in stock a range of tree stakes, tree ties and tree guards. Please ask a member of our staff who will help with a choice to suit your tree or hedging requirement.
